

Private Corporate Happy Hour at *Seven Steps Up*

“Your colleagues have invited you to join them for a beer after work. Your boss has added team-building to your duties and you're wondering if planning a get-together in the local pub might be a good idea.

“If you're the first to arrive at the local watering hole, pick an area where your group can chat without others overhearing you. Even though the intent is to have a casual get-together, someone might inadvertently leak a corporate secret. Move to a quieter spot to talk if someone is intent on having a serious work-related conversation

“It's important to be known for more than your work, so be sociable at happy hour, all while remaining professional. It's a great opportunity to get to know your colleagues and to get yourself noticed for being an all-around great guy [or gal]”
